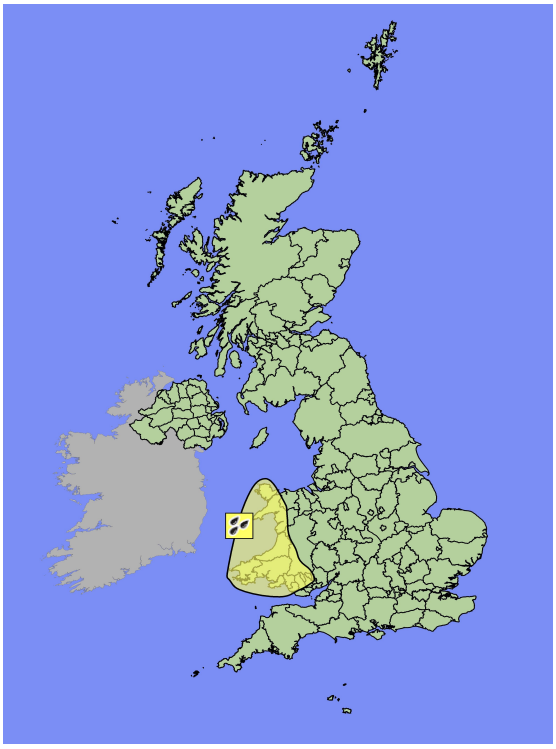
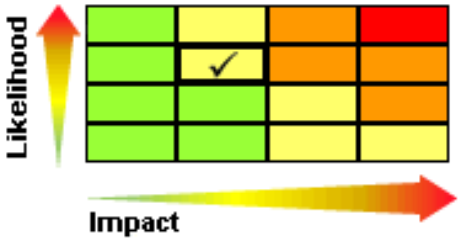
National Severe Weather Warning Service





Chief Forecasters Assessment
An area of low pressure centred over Ireland will move slowly northeastwards during Saturday, with bands of rain and showers within it's circulation expected to bring spells of persistent and at times heavy rain to areas of Wales exposed to the strong south-westerly winds. Many places will receive 15-25 mm of rain, with as much as 50 mm in Snowdonia and 60-80 mm in the higher ground of south Wales.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **00:00 on Sat, 16th Jun 2012** until **23:59 on Sat, 16th Jun 2012**

Further heavy rain or showers will affect Wales during Friday night and Saturday, merging into longer spells of rain in areas exposed to the strong south-westerly winds.

The public should be aware of the risk of localised flooding.
